“ *I am so sorry to hear of Dr Taylor passing. I certainly enjoyed flying for him at Appalachian Flying Service! I remember a trip to UVA for a visit with Peter and David and Dr Taylor and he was so proud to show his sons around Charlottesville. And I remember a trip to drop off Peter in New York to catch a commercial flight out. And my wife and I always enjoyed the company Christmas party in Bluefield. It is a real pleasure knowing the Grace of all of such a fine family!*

“ One of my favorite people. I began seeing him as a patient at the age of 18 and continued until the time of his retirement. We worked in building A together for 29 years. Enjoyed getting to know him on the many occasions I was invited to his home, the country club and the cabin for dinners and parties. I will always treasure my memories of this fine man.

“ To the family of Dr. Taylor. I am so sorry for your loss. I am so thankful for the care he gave me and I told him often. The last time I saw him was in Food City with his caretaker. He was shopping and she was standing back. I went over to speak to him and as always his face lit up and he grinned that grin I loved. I missed him when he left his practice and will miss him more now. Again. Thank you Dr. Taylor for everything. A former patient. Barbara M. Dowell

“ Brookie was a great doctor and friend along with Charlotte, his wife. We had many wonderful times together at birthday parties, golf, and just talking. A special family. He was so nice to me when my family moved to Bluefield in 1963. I had met Charlotte in Tazewell when we were in High school in the 40's. Til we meet again. I have suffered a great loss. Puck Kiser

“ I worked with Dr. Taylor in the mid-70s. But what I remember most is how much my sister Goldie Bell, a lifelong patient of his, respected and loved him. She refused to see anyone but Dr. Taylor. My condolences and prayers for the family.

“ Thinking of the entire Taylor family during this time. I will never forget my Mom working for Dr. Taylor for many years in the 1970's. The experience that she gained in that office inspired her to become an RN. It was also her start which led to her spending her entire career in the medical field. Dr. Taylor will be missed.

“ Brookie I will miss you . You knew each one of your hundreds of patients and all their family. Even more, you really cared about anyone who was lucky enough to call themselves your patient . In the ED if we had someone of yours who was unstable , you would literally pace the floor , sincerely concerned . I never did and never will witness your like again

“ We could always set our clocks on nightshift when Dr. Taylor came in. He was always there at pretty much the same time every morning. I always said you knew you'd worked at BRMC a long time when you got to where you could read Dr. Taylor's writing...lol. He was the best!! Rest in peace Dr. T. Prayers for your family!!

“ Brookie you will be missed my neighbor, colleague and friend. You represented the golden age of medicine where everyone in the family was your patient and you knew every detail about all of them. You were always an example to the younger physicians who didn't understand the importance of bedside manner and bedside care. But true to the stereotype you absolutely had the most indecipherable physician handwriting I have ever seen! Love and prayers to your family.

So sorry to hear of Dr. Taylor's passing, he was a dear caring physician who had a great bedside manner. When I was in the hospital I often wondered if he ever slept because he would be there before sunrise and sometimes after sunset. I dreaded hunting for a new doctor when he retired. My thoughts and prayers are with the family.
